OBJECTIVE

A dedicated and highly motivated Computer Science student seeking a Software Developer role. Committed to leveraging strong foundational knowledge in MERN stack development and AI technologies to contribute to the growth and success of a reputable organization while solving real-world problems.

EDUCATION

Bachelor of Technology in Computer Science & Engineering (Pursuing)

Babu Banarasi Das University, Lucknow, U.P.

Intermediate (Class XII) | 2022 | Result: 74%

H.R.I.C. Khalilabad, Sant Kabir Nagar (U.P. Board)

High School (Class X) | 2020 | Result: 80%

Kisan Inter College, Sant Kabir Nagar (U.P. Board)

PROJECTS

ServiceHub – Neighbourhood Service Marketplace (Hackathon)

2026

- Built a full-stack MERN marketplace connecting homeowners with verified local service providers, featuring JWT authentication, real-time booking management, and role-based dashboards for customers and providers.
- Implemented a responsive React/TypeScript frontend with Tailwind CSS and dark mode, backed by a Node.js/Express/MongoDB REST API for services, bookings, and reviews; collaborated in a 4-member team.

AI Chatbot for Inclusion Awareness

Oct 2025

- Developing an AI-driven chatbot designed to promote and provide information regarding social inclusion and awareness.
- Focusing on backend integration and natural language processing to enhance user interaction.

Amazon Clone (Frontend)

Jun 2025

- Developed a responsive e-commerce interface using React and CSS, mimicking key features of the Amazon homepage.
- Integrated functional components to handle dynamic data rendering.

Rock-Paper-Scissors Game

Jul 2025

- Created an interactive web-based game using JavaScript, focusing on logic implementation and DOM manipulation.
- Designed a clean, user-friendly UI to ensure a seamless gaming experience.
